DETAILED ACTION

Request for Continued Examination

1. The request filed on January 19, 2006 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/677,460 is acceptable and a RCE has been established. An action on the RCE follows.
2. Claims 1, 3-33 are pending. Claims 7, 16-21, and 25-33 are drawn to non-elected subject matter. Claims 1, 3-6, 8-15 and 22-24 are examined with merit.
3. In view of amendment filed January 19, 2006, the objection of claim 3 is withdrawn.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1, 3-6, 8-10, 12-15, and 22-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Levy (US Pat. 3,875,090) for the reasons adequately set forth from paragraph 7 of the office action issued on September 26, 2005.

Applicant's arguments filed January 19, 2006 have been fully considered but they are not persuasive. Applicants argue that the amended claim 1 is now pertained to a one-part primer composition. Since Levy is silent on a one-part composition, the rejection set forth is now overcome. However, the examiner disagrees because Levy (col. 5, line 9-28) clearly teaches one of ordinary skill in art an embodiment of a one-part coating composition through the use of blocking-groups technology. After reading the disclosure of Levy, it would not be difficult for one of ordinary skill in art to appreciate the values of a one-part coating composition and would develop a one-part coating composition based on the two-part compositions that have already been disclosed.

7. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Levy (US Pat. 3,875,090) for the reasons adequately set forth from paragraph 8 of the office action issued on September 26, 2005 and paragraph 6 of instant office action.
